

Your house is your heaven,  
it is not an amusement park for those tiny insects.

bug people

Authorized Preferred Operator to Ensystem Inc.

We are proud to present Professional Pest Management Services.

With respect to our international standards of service, we implement "Integrated Pest Management" (IPM) which is the combination of baiting and chemical spray treatment. This new approach reduces the poison-based chemical in order to minimize chemical residual in your house and to ensure for environmental safety.

Our service packages consist of the followings:

- Pre-construction Phase:
  - The NOVITHOR Pesticide Free Termite Protection System
  - Soil Treatment for Termite Chemical Barrier with MAXXTHOR
- Post-construction Phase:
  - Termite Management Solution with Exterra Baiting System
  - General Pest Management for Ant, Cockroach, and Mosquito Control (Baiting + Chemical Spray)
- Rodent Management Solution (Bell Laboratories Baiting Technology)

Our 3 unique selling points to achieve the highest-satisfaction level in term of effectiveness are below:

- Implemented by certified pest management technician, specialized in Entomology
- Selection of most reliable pest management systems which are all environmental safety
- Service Summary Report to be presented to our clients at all time
