

Your house is your heaven,
It is not an amusement park for those tiny insects

Authorized Preferred Operator to Ensystem Inc. (USA)

Professional Environmental Friendly Pest Management Service

With respect to our international standard of service, we implement Integrated Pest Management (IPM) which is the combination of bait and chemical spray treatment. This new approach reduces the poison-based chemical in order to minimize the chemical residual in your house or workplace for environmental safety.

Our service packages consist of the followings:

- Pre-construction phase: Soil Treatment for creating termite chemical barrier with **Maxxthor**
- Post-construction phase:
 - Termite Management Solution of **Exterra Termite Bait System**
 - General Pest Management for Ants, Cockroaches, and Mosquito Control (**Bait & Chemical Treatment**)
 - Rodent Management Solution of Rodent Bait System (**Bell Labs Rodent Bait Technology**)

Our service unique selling points to achieve the highest satisfaction level in term of Effectiveness are below:

- Implemented by Certified Pest Management Technicians only, specialized in Entomology.
- Selection of most reliable pest management systems which are environmental safety.
